

Year 4 - Longleat and Wardour

History/Geography

This term, our topic focuses around the water cycle. The children will study how the water cycle works as well as collecting and measuring rainfall around our school community. We'll also look at which animals make their habitats in water and discover some water dangers.

Science

The children will be looking at different states of matter. During practical hands on lessons, the children will identify solids, liquids and gasses as well as continuing to work scientifically.

RE/T&P

In term 6, we will focus again on Christianity. The children will investigate if Christians need to go to church to show they are Christian. We will explore the different ways Christians celebrate their religion and will visit the local church.

PE

The children will continue to be taught PE with Ms Wildman each week, this term continuing to prepare themselves for upcoming sports week. The children will be practising the 5k route as well as summer sports such as javelin, hurdles and distance races.

French

In our sessions this term, the children will learn the seasons and be able to say the weather. The children will work towards presenting a weather forecast.

Wonderful Water Term 6, 2019

Super Starter - Extreme weather analysis and making weather recording equipment

Marvellous Middle - Waterproof Den building and DT boats

Fabulous Finish - Winchester Science Centre

Building Learning Power

Our school theme this term is Reflectiveness. The children will look at using the skills of: - Meta-learning, planning, revising and distilling.

Art/DT

For DT this term, we would like the children to design and make a boat that floats. The children will select appropriate materials to build with and justify their choices. They will then evaluate the effectiveness of their designs.

Computing

The children will continue with computing programming at the start of the term. The children will import create and import sounds into SCRATCH. In the latter half of the term, the children will create weather reports, developing camera techniques and the possible use of green screen.

PSHCEE

This term, the children will focus on growing and changing. They will explore the changes in their feelings as well as preparing for changes that will happen now and in the future.

Music

This unit develops children's ability to create, perform and analyse expressive compositions and extend their sound vocabulary.
